

The background features a dark blue gradient with various financial data elements. On the left, there are columns of numbers in green and red, some with plus and minus signs, resembling a stock market ticker. On the right, there is a blurred image of several coins, likely Euro coins, with some showing the number '20'. The overall aesthetic is professional and data-driven.

Benefits to investing in our Resources

Quality:

Our learning resources are created by experts in their fields who have a deep understanding of the subject matter. We take great care to ensure that our content is accurate, up-to-date, and relevant to the needs of our learners. We also ensure they meet the training package and AQTF requirements so you will have peace of mind when audits occur.

Quality Assured

CUSTOM MADE

Customisation:

Our learning resources are designed to be flexible and adaptable to the needs of different learners. We offer a variety of formats, such as E-Learning, print based, on-line learning using an LMS, video lectures, interactive quizzes, self-assessments, self-marking assignments, and written materials, so that you can choose the format that works best for your learners.

Customisation

Support:

We provide support and guidance to our trainers and assessors throughout their teaching journey. Our team of experts is available to answer questions, provide feedback, and offer personalized advice to help you to deliver and assess your learners.

We provide support to all our purchasers in the implementation of our materials. We minimise the required paperwork for print based materials to save you and your learners time and when using e-learning all paperwork is embedded into the programs.

Support and Guidance

Accessibility:

We believe that education should be accessible to everyone, regardless of their background or circumstances.

That's why we offer a range of learning resources at different price points and provide some free resources to help you get started at the beginning of the teaching year.

A large, 3D word 'Accessibility' is rendered in white, bold, sans-serif font. The letters are slightly offset and layered, giving a sense of depth. The background consists of various colorful 3D rectangular blocks in shades of yellow, green, blue, and red, some of which are partially obscured by the letters. The overall composition is vibrant and modern.

Accessibility

Accessibility

Language:

We use clear and concise language that is appropriate for the target audience. We avoid using technical jargon and complex sentence structures that may be difficult for learners to understand. We measure this using the Flesch Readability Score for the level of your students.

Literacy:

We ensure that the learning materials are designed in a way that supports literacy development and all materials are checked by our LLN Expert. This can include using headings, subheadings, and bullet points to break up text, as well as including visual aids such as diagrams and illustrations to support comprehension.

Numeracy:

We use numerical examples and real-life situations to help learners understand how to apply mathematical concepts. Provide opportunities for learners to practice and apply their numeracy skills in a variety of contexts.

In addition, all our materials are mapped to the Foundation Skills to ensure the appropriate levels of LLN are met. The Core Skills Framework is used as a basis for all learning and assessment materials.

Language, Literacy and Numeracy

Compliant Assessments:

We develop assessment tasks that are aligned with LLN requirements, training package requirements and Foundation Skills. They also meet AQTF Requirements.

This includes using language and vocabulary that is appropriate for the target audience, as well as designing tasks that require the application of practical skills through industry related case studies.

Compliant Assessments

A hand is holding a light blue card with the word "Charges" written on it in a large, blue, sans-serif font. The card is tilted slightly. In the background, there is a green rectangular box containing text.

Price Competitive:

Our prices are highly competitive with other publishers. Our pricing model is also flexible to meet your needs. You can purchase individual items, you can pay a per student fee or you can buy an entire package.

Fees and Charges

Comprehensive Materials

All our packages include:

- Learning Guides
- Assessments
- Power Points
- Mapping Matrix
- Additional Learning materials for free

Ability to use E-Learning or print based

Hosting packages if required

Ability to customise packages to suit your needs.

Comprehensive Materials

- 
1. Quality
 2. Customization
 3. Support and guidance
 4. Accessibility
 5. Language
 6. Literacy
 7. Numeracy
 8. Compliant Assessments
 9. Price Competitive
 10. Comprehensive materials

Ultimately, the decision of which learning resources to invest in will depend on your specific needs and preferences. We encourage you to explore our learning resources and compare them to other options to determine which one is the best fit for you.
